

1. Consider the **Sample-Superstore-Subset-Excel.xlsx** data file. This data file contains information from an online store. Using this data file in tableau desktop, answer the following:
  - (a) (3 points) Connect the **Sample-Superstore-Subset-Excel.xlsx** data file to **tableau**. Load the **Orders** sheet.
  - (b) (5 points) Create a chart that shows total sales by region. What region has the most sales?
  - (c) (5 points) Create a chart that shows total profit by product category. What product category has the most profit?
  - (d) (5 points) Create a map that shows total sales by state. What state has the most sales?
